ARE ALL EYES

### DEFECTIVE?

Certain it is that many people expe-  
rience no trouble with their eyes.  
Naturally a very large proportion of  
those who consult opticians or ocul-  
ists have defective eyes, because the  
trouble they have leads them to the  
consultation.

There have been quite a number of  
people in to see me of late who have  
nothing at all the matter with their  
eyes.

If you have any doubt as to the con-  
dition of your eyes it will afford you  
a great deal of satisfaction to know  
positively. I shall be glad to tell you

### A GREENSBORO BOY.

Mr. Herbert L. Smith, a Loser in the  
Durham Fire.

The city of Durham, or rather East  
Durham, suffered a loss of \$5,000  
worth of property yesterday morning.  
Mr. S. J. Gooch, a fireman, was struck  
by a piece of falling timber and  
knocked from a second story window,  
sustaining severe injuries.

Among the list of those who lost by  
the fire we find the following:  
"Herbert L. Smith, contractor for a  
new two-story brick building of Y. E.  
Smith & Co., loss about \$700 or \$800;  
no insurance."  
Mr. Smith is a Greensboro boy, and  
the son of Mr. J. Y. Smith. He has  
many friends here who sympathize  
with him in his loss.

### A Plucky Young Man.

Howard L. Weeks, of the Johnston  
Manufacturing Co., returned at noon  
from Henderson, where he has been  
doing some canvas work for his firm  
on the steps of the Methodist church.  
It will be remembered that while en-  
gaged in this piece of work a few  
weeks ago Mr. Weeks lost his foot and  
fell thirty-five feet to the roof of  
the building, breaking his left ankle in  
three places. But it seems he is a  
young man of undaunted courage, and  
was determined to finish his task or  
die in the attempt, and accordingly, he  
put his crutches aside and returned to  
Henderson last week and completed the  
contracting yesterday.

### First Presbyterian.

There will be services at the First  
Presbyterian church tonight at 7:30,  
and also on Wednesday and Thurs-  
day nights. The congregation and all  
others are cordially invited to attend  
these preliminary services to pray for  
a blessing upon our church and com-  
munity.

### UNEASINESS AT LONDON.

Military Authorities and the Peo-  
ple Alarmed at the Situation

### ANOTHER FIGHT NEAR MAKEKING.

British Repulse the Boers, Killing  
53 and Wounding Many.

By Cable to THE TELEGRAM.

London, Oct. 24.—The war office  
issues the following dated at Capetown,  
13th inst.: "Baden Powell tele-  
graphs under date of 15th that all is  
well. A fight occurred today four  
miles from Makekeng. An armored  
train, a section of the British South  
African police and two squadrons of  
Bechuanaland Protectorate regiment  
repulsed the enemy. The British loss  
was two killed and fifteen wounded,  
while the enemy lost fifty-three killed  
and many wounded.

### GENEROUS WORDS OF ENGLAND.

London, Oct. 24.—The war office  
gives out a dispatch from Pietermar-  
itzburg, dated 22nd, stating as fol-  
lows: "A number of Boers captured  
at Elendlaagete, are expected here  
tonight. The government has issued  
a notice requesting citizens to abstain  
from demonstrations, adding that  
though the Boers are our enemies,  
they are brave men, and we can afford  
to be generous."

### FIRE UPON AN AMBULANCE.

London, Oct. 24.—The Daily News  
correspondent at Ladysmith ven-  
chures his personal observation of the  
fact that the Boers fired upon an am-  
bulance succoring wounded British,  
and says others testify to the same.

### ALARM AT LONDON.

London, Oct. 24.—The military au-  
thorities and the public in general are  
much alarmed at the situation in South  
Africa. It is feared the official dis-  
patches do not represent the condition  
of affairs accurately. The latest dis-  
patches were withheld by the cabinet  
after conference.

### STRICT CENSORSHIP.

London, Oct. 24.—At 10 this morn-  
ing the Central News had not received  
any message from Glencoe since Sat-  
urday afternoon, although it is un-  
derstood the telegraph to Glencoe, Lad-  
ysmith and Durban was restored yes-  
terday. It is believed the censorship  
situation is the strictest ever known.

### SCARCITY OF FOOD.

Koopman's Point, Oct. 20.—A dis-  
patch from Rider via Hopetown says:  
"Parties of Kaffirs returning from  
Jagersfontein and Kimberley were un-  
able to obtain food. There is already  
scarcity of food throughout Bechuan-  
aland, Griqualand and the west owing  
to the stoppage of the transport ser-  
vice."

### MOBILIZATION OF CRUISERS.

London, Oct. 24.—It is stated at  
Portsmouth that the admiralty has or-  
dered all cruisers mobilized and pre-  
pared for active service. The notice  
is short, but the work of preparing the  
vessels for commissions is being  
pushed hurriedly.

### BEHIND SEA MATTER.

Russia Agrees That It May Be Set-  
tled by Arbitration.

By Cable to THE TELEGRAM.

London, Oct. 4.—Russia agrees to  
arbitrate the United States' claims,  
resulting from her seizure of sealers of  
Behring sea, which has been pending  
about eight years. The protocol of  
the two governments has been drawn  
and the dual formalities are expected  
to be concluded next week. The court  
of arbitration will probably take its  
form from the Venezuelan court.

### Big Engagement.

By Cable to THE TELEGRAM.

### Bound Over to Court.

J. H. Cook, the young white man  
who was arrested by Officer Cates Sat-  
urday evening, on the charge of at-  
tempting to forge a check for \$11.50,  
was given a hearing before Mayor  
Taylor at 4 o'clock last evening. After  
hearing the evidence, the mayor de-  
cided to place the defendant under a  
bond of \$100 for his appearance at the  
next term of superior court. Cook  
failed to give the required bail, and  
was committed to jail.

### Clothing.

Clothing for all from the three year  
old boy to the man who measures 50  
in the chest. And about the price,  
you can buy what you want at 60 cents  
on the dollar. Full assortment in all  
styles overcoat and suits.

### Dramatic Club Meeting.

Every member of the Eagle Dramat-  
ic Club is urged to attend a called  
meeting tonight at Eagle Hall, over  
Thacker and Brockmann's. Business  
of importance will come before the  
meeting.

### Furnishing Goods.

Come! Come! Come! and take ad-  
vantage of the sale at the Fishblate-  
Katz Co., Inc. All goods are being  
sold at 60c on the dollar. Time short.  
Only 60 days more.

Fishblate-Katz Co., Inc.,  
Opposite McAdoo Hotel.

### OPENED TODAY.

The Winston Horse Show Will Sur-  
ely be a success.

Greensboro will be well represented  
at the horse show, county fair and  
carnival which opened at Winston-  
Salem today.

A large number of our people went  
this morning to witness the opening  
parade. Some of them will remain all  
the week, while others are expected to  
return tonight.

Among the number who left are:  
W. W. Workman, John Stewart, Joe  
Andrews, J. W. Merrill and two chil-  
dren, T. J. McAdoo, J. H. West and  
daughter, Harry Mathews, Bert Hor-  
ton and the members of the Gate City  
Band. The band was engaged to es-  
cort the chief marshal, General Jul-  
ian S. Carr, from the Winston depot  
into the city, and to take part in the  
opening parade this morning. Gen-  
eral Carr arrived here this morning  
on the vestibule from the north.

The Winston train had four extra  
coaches and all of them were well  
filled.

It is expected, however, that the  
largest number of our citizens will  
be in attendance on Thursday, on  
which day the grand floral parade will  
be had.

A telephone message from Winston  
this afternoon states that the grand  
opening parade was a brilliant suc-  
cess, and was witnessed by several  
thousand people.

The parade was formed on Fifth  
street and moved down Cherry to Sal-  
em square and then up Main street to  
north Winston grand school.

There were in the procession about  
twenty-five beautiful floats, the most  
attractive one being that of the graded  
schools. It was designed and equipped  
by the schools and was a most credi-  
table exhibit. Besides the usual decora-  
tions it was graced by the presence  
of many lovely young ladies and boys  
from both schools.

There are over 5,000 people out at  
the fair grounds this afternoon to wit-  
ness the races.

The senior class of Salem Female  
Academy went out to the grounds this  
afternoon in charge of the principal,  
Rev. J. H. Cawell.

The P. A. will give a banquet at  
Phoenix Hotel to-night to the local  
and visiting members.

The Dan Packard Opera Co. will  
present Fra Diavolo at the army  
hall tonight.

### DAN PACKARD OPERA COMPANY.

Will be at the Academy of Music  
Next Week.

The advance force of the Dan Pack-  
ard Opera Company and orchestra un-  
der the direction of Mr. Allen Jen-  
kins arrived in the city this morning  
from Winston-Salem, are now busily  
engaged in putting up the billing of  
that famous company.

This organization has proven to be  
the most popular that has ever visited  
the south, and their engagement in  
this city next Monday, Tuesday and  
Wednesday, matinee and night at the  
Academy of Music will be the most  
important event of the present season.

The company has met with a royal  
reception in every city visited, and its  
continued engagements in Philadel-  
phia, Richmond and other places is a  
high compliment to the troupe, and a  
recommendation of its superiority.

Every opera is lastingly costumed  
and staged and the lady members of  
the chorus are all pretty, winning for  
that portion of the company the title  
of "a show of beauty."

### 'Tis Better to Pay.

When the northbound fast mail  
pulled up at the passenger depot here  
at noon today, a well dressed young  
white man alighted from the platform  
next to the tender. He had waited pa-  
tiently on the platform until the train  
came to a standstill, and then, with a  
small-sized grip in hand, he strolled  
around the depot until the train was  
ready to start, when he crossed the  
track and endeavored to jump on the  
moving train, but Officer Cates was  
standing near and nabbed him. He told  
the officer he was a member of the  
"Jay Bird" company, a comedy com-  
pany, and was intending to take a  
train at High Point for Salisbury this  
morning when he boarded No. 38. He  
was finally released by the police, who  
say they think he told the truth. He  
said his company went to Salisbury  
this morning but he was just a little in-  
toxicated and missed the train. It is  
supposed he will go to Salisbury to-  
night.

### Good Break To-Day.

Greensboro's tobacco market is no  
small item in the city's industries.  
Throughout last week wagons came  
from all sections of our territory, and  
the farmers express themselves as being  
well pleased with the prices. The war-  
houses to-day had large breaks, and  
as long as prices hold out we may ex-  
pect tobacco to rush in and keep the  
tobacco men busy. The sales to-day  
lasted until after mid-day.

### Leaves To-Night.

F. L. Sneed, of the Eagle Country  
Co., leaves to-night for Salem, Va.,  
where he will be married to Miss Lucy  
Furrow to-morrow evening at the home  
of the bride. Mr. and Mrs. Sneed will  
return to this city Thursday. Howard  
White will accompany Mr. Sneed to  
Salem and will be one of the attend-  
ants at the marriage.

The results accomplished by the  
Provident savings during the past  
two and a half years will bear com-  
parison with any kindred institution.  
Its practical reforms and its improved  
policies are recognized by all agents  
who make life insurance a profession  
and by the insurance public.—Journal  
of Commerce, New York City, August  
21, 1899.

### JETER WILL HELP 'EM OUT.

In the Closing Days of the  
Maryland Campaign.

### THOUGHT RESULT WILL BE CLOSE.

Dr. Charles N. Shepard Makes an  
Interesting Report on Tea Cul-  
ture in South Carolina.

Special to THE TELEGRAM.

Washington, Oct. 24.—The indica-  
tions are that the campaign in Mary-  
land will be brought to a brilliant  
close, so far as the republicans are  
concerned. It is the intention of the  
managers of the party in the state to  
import some outside talent, and they  
will endeavor to bring the contest to  
an end with a blaze of oratory seldom  
has spoken in all of these states. The  
intend to visit Maryland during the  
coming two weeks are Governor Rouse-  
velt, of New York, Senator Thurston,  
of Nebraska, Senator Pritchard, of  
North Carolina, and others. The dem-  
ocrats are fighting their campaign on  
purely state issues, while republicans  
have tried to make the contest one of  
national importance, arguing that as  
soon Maryland this year as the state  
will go in the presidential election.

There has been considerable criticism  
of the democratic state committee on  
account of their failure to extend an  
invitation to Col. Bryan to visit Mary-  
land. Those who believe in bring-  
ing him to the state say that the cam-  
paign in Maryland is fully as impor-  
tant as the campaigns in Kentucky,  
Ohio, Iowa, or Nebraska, and Bryan  
has spoken in all of these states. The  
state committee reply with some force  
that the campaign is one of state im-  
portance and that national politics  
should not be allowed to enter into  
the campaign. They say further that  
the action of the republican managers  
in bringing in an array of outside  
side-splitters will injure, rather than  
strengthen their ticket, as it is an  
attempt to overstep the bounds of the  
state administration. Col. Bryan  
will not visit Maryland this year,  
and the democrats are relying  
solely on themselves to pull their nomi-  
nees through.

Maryland people coming to Wash-  
ington say that the election will be  
very close. It is generally thought at  
this time that Gov. Lowmeyer will be  
re-elected by a small plurality, and  
that Baltimore city will contribute to  
this result.

An interesting report has been issued  
by the Department of Agriculture upon  
the experiment of the culture of tea in  
South Carolina. The report is written  
and edited by Dr. Charles H. Shepard,  
the special agent in charge of the tea  
culture investigations. It is published  
by the Department of Agriculture as  
the best means, it is thought, of en-  
couraging others in the Southern  
States to take up the culture of tea.

In the introductory chapter of the re-  
port it is stated that the problem of  
raising tea in the southern part of the  
United States has been discussed more  
or less for many years. As early as  
the year 1848, Dr. Junius Smith made  
a successful planting at Greenville, S.  
C., but the work was not, for some  
reason, continued, and the interest in  
the culture abated. In the year 1881  
congress made an appropriation for  
an experiment in tea culture, but when  
Mr. William Saunders, horticulturist  
and superintendent of gardens and  
grounds of the Department of Agri-  
culture made an investigation he found  
that, by one cause and another, the  
money thus appropriated had been in-  
judiciously expended. Thereupon, the  
recommendation of Commissioner Loring,  
who was then in charge of the  
Agricultural Department, the experi-  
ment was suspended. In 1892 the sub-  
ject was again taken up in the annual  
report, in a report by Mr. Shepard,  
upon the operations on the Pinehurst  
estate at Summerville, S. C. In 1897  
a second report about the work in  
South Carolina was made by Mr.  
Saunders. The statements published  
in the present report continue the  
presentation of the results obtained on  
the Pinehurst plantation.

Word has been received in Wash-  
ington that Hon. Thomas C. McKittrick,  
congressman from Arkansas, is quite  
ill. He is a member of the house from  
the Third Arkansas district, and is a  
member of the appropriations com-  
mittee. It is said that he suffers frequent  
attacks of vertigo, but it is thought  
his condition will improve when cooler  
weather sets in.

Senator Sullivan, of Mississippi, is  
in Washington for the purpose of at-  
tending to some departmental matters  
in which he is interested. He will be  
at the Metropolitan hotel during his  
stay in Washington.

Mr. Elliott, the well known Wash-  
ington artist, who is engaged in a  
work on the Vance statue, is of the  
opinion that it will be completed by  
next March, or April. It is understood  
the unveiling at Raleigh will be held  
during the month of May.

Hon. Clifton B. Breckinridge, of Ar-  
kansas, who was minister to Haiti  
during the Cleveland administration, is  
in the city for a few days. While  
here he is stopping at the Hotel Nor-  
mandie. Mr. Breckinridge says that  
the business and political outlook in  
the west are good, from a democratic  
point of view. He thinks the dem-  
ocrats will stand a good chance of  
carrying Ohio two weeks from today.

Mr. Breckinridge himself has not taken  
any active part in the campaign  
work this fall.

### NOTES FROM HIGH POINT.

The Local News From Our Neighbor-  
hood Briefly Told.

TELEGRAM BUREAU,  
HIGH POINT, N. C., Oct. 24.

Do! You are a good one, Uncle  
Josh!

Capt. J. Parkin, of Hoover Hill, was  
here yesterday.

Salem was represented here yesterday  
by N. M. Moore.

Ed L. Ragan came up from Green-  
boro last evening.

O. E. Wilson and wife, of Archdale,  
were here last night.

Mr. Tomlinson, of Archdale, passed  
through last evening en route home.

Miss Etta Blair and Blanche Wood,  
of Asheboro, spent last night in the  
city.

Prof. Chas. G. Mann spent yester-  
day in the City of Flowers, on busi-  
ness.

Miss Mamie Smith returned last night  
from a visit of ten days to relatives and  
friends in Raleigh.

W. J. Armfield, Jr., and C. A. Pam-  
plin came up from Asheboro last eve-  
ning and took in the show.

Rev. J. M. Hilliard returned last  
evening from Greensboro, where he  
conducted services at Cherry St. Baptist  
Church, Sunday.

Howard Maxwell left last night for  
Trenton, N. J., the home of his brother  
Chester, where he expects to engage in  
business. Howard is a good boy and  
we hate to lose him.

June Johnson, the groceryman, found  
a curiosity yesterday while look-  
over some turnips he had bought. A  
veritable vegetable "white elephant"  
in shape and color. The snout or  
trunk of this strange freak of nature  
was as perfect as if it had been mould-  
ed, and altogether the product of the  
soil showed a marked resemblance to  
the elephant. Mr. Johnson now has a  
"white elephant on his hands."

Most of the people who saw the ex-  
hibits from High Point at the state  
fair were astonished to know that such  
goods were manufactured here. As-  
tonished to know that we were so far  
advanced in the manufacturing line.  
We do not wonder at this! High  
Point is a quiet, unassuming town,  
and is so thoroughly business that she  
has no time to loom herself nor her  
products. She does not need to do so.  
Every factory is running at full blast  
and are selling their goods as fast as  
they can be manufactured. And they  
are a lot, too.

The horse traders who have been in  
this county for some time, are now en-  
camped in the strip of woods back of  
the Pickett row. They are an interest-  
ing set of people—not gypsies, but  
wanderers on the face of the earth.  
They left St. Louis, Mo., in July and  
reached North Carolina one month  
ago. It seems that they made pretty  
good time. They have about sixty-five  
head of horses now and if you want to  
swap, buy or sell, here is your chance!  
It looks as if they had found an oasis  
in the desert and intend making Guil-  
ford county their haven of rest.

The three-act comedy, "A Jay from  
Jaysville," was presented in the opera  
house here last night to a crowded  
house—the largest audience, we be-  
lieve, that has greeted a similar show  
here in some time. The performance  
was good—above the average comedy  
companies on the road presenting a  
like play. The unusual was sprung on  
us, though, as "after concert," which  
was made up of the specialties that go  
between the acts and should have been  
included gratis. But an extra charge  
of 10 cents was made and a nice sum  
realized, for nine-tenths of the audi-  
ence remained for the after concert,  
especially to see the trick bicyclist.

### DO YOU ADVERTISE?

### Found Dead in Bed.

Louis Hall, aged 57 years, a highly  
respected colored man, was found dead  
in bed this morning by Frank Land-  
reth, who says he called on Hall yes-  
terday and was talking to him and he  
appeared to be in good health. Deputy  
Sheriff Weatherly examined the  
deceased today and it is his opinion  
that Hall died of old age.

Ladies who would like to see the  
best looking, best fitting, and longest  
lasting shoes ever sold in this city at

## SANCTIFICATION.

We do not deem it our special business, as others have done, to discuss sanctification as taught by the latter day evangelists. It is not our province to say that these men are cranks and that they are doing more harm than good. We recognize and respect that clause in the constitution of our country which guarantees every man the right to "worship God after the dictates of his own conscience."  
That this subject is cause for wide difference of opinion among christian people of every denomination we are well aware, and we cannot say that the man who believes in sanctification is not as much entitled to his opinion as the man who does not.  
There is one point, however, about which we haven't the slightest doubt, and that is that the average evangelist leaves the churches of a community disturbed and the members get at cross purposes and often harm comes of it. Whether the good done is sufficient to overcome the evil is a matter on which the pastors who look after the people after the evangelist is gone can throw more light than we.  
But, about sanctification or the holiness doctrine, which is being taught in Greensboro, many people are interested. The Telegram has therefore asked Messrs Cecil and Hypes, who are conducting a tent meeting on the corner of South Elm and Lewis streets, to give us a statement for publication setting forth the doctrine as taught by them. They readily consented and their statement will be found in another column today.  
Knowing that their presence here is being much discussed, and by people who have not heard and will not hear them, and desiring to be perfectly fair to all, we asked for their statement, that all may see it.

Judge Shaw is the right man in the right place. Sorry all our judges are not like him. Quite a number of evil doers know that it is to appear before a judge who has the backbone to discharge his duty faithfully.  
The above is from the Mt. Airy News, and is a sample of what is said of our distinguished townsman everywhere he holds court. Judge Shaw went on the bench comparatively unknown to the people of the state; but only one term of court is necessary to introduce him. His uniform courtesy, his splendid judicial temperament and dignified bearing, his keen sense of right and justice and the nerve to fearlessly administer the law with a steady and unflinching hand are winning for him new laurels everywhere.

It is stated that the October number of the North Carolina Carolina Agricultural Bulletin will be devoted almost exclusively to the "Hog and its Products." Raising, killing and curing for good hams, breakfast bacon, shoulder cuts, etc., will receive special attention. Now they're talking sense. They are talking stuff that will be beneficial. The hog is one of our commonest animals, one of the most useful, and it is strange that so few people, even among the agricultural class, are thoroughly acquainted with him. Everybody knows a hog when they see him, but comparatively few people know his best points and how to make the most of them.

A number of people in Greensboro have opinions about the city hall an market house question, and it would be well to publicly express them. Don't wait until the work is begun and then complain because you don't like it. Of course everybody cannot be pleased, but every man can express his opinion and from the consensus of opinion a decision may be reached that will, if carried out, be of the most lasting good to the town and community. It is right that the people be given a hearing when their money is to be invested, and the columns of the Telegram are open to them in this matter.

Charles P. Sapp, of the News and Observer editorial staff, has been sent by that paper to Kentucky and Ohio, to view and write up the political situation in those states. Mr. Sapp is a pungent writer and his letters will be eagerly sought after.

Joseph Stockford, Hodgdon, Me., headed a sore running for seventeen years and cured his piles of long standing by using DeWitt's Witch Hazel Salve. It cures all skin diseases. Howard Gardner.

## WHAT IS SANCTIFICATION?

Statement of the Doctrine by Evangelists Cecil and Hypes.

To the Evening Telegram:  
We thank you for an opportunity of setting before the readers of your paper the great doctrine of sanctification, which we are now teaching in your community. We are aware of the fact that this doctrine is agitating the minds of the people throughout the land as probably it has not done since the days of the apostles.

The doctrine is not so objectionable when understood by Christians, as when first brought to their view. There is no doubt that the doctrine has been hurt in the house of its friends, even more than among the enemies. Many of the friends of the doctrine have been very indignant at statements of the doctrine, in claiming more for it than is meant, or intended to be taught. Many again have hurt the cause by minimizing regeneration in order to find a place for this doctrine. These false and indiscreet teachers have often claimed that their regenerated life was one of continuous sinning and that sanctification had saved them from a sinning religion.

We teach that regeneration is the great fundamental doctrine; and upon this is based the doctrine of sanctification, that "whoever is born of God, or is regenerated, doth not commit sin," and "whoever is born of God overcometh the world." So, if you have a sinning religion, or sinning every day, you are not regenerated. We believe that the man who lowers the standard of regeneration to the level of the doctrine is ignorant of the doctrine he is trying to teach, and that he is a blind leader of the blind and is doing the cause a great injustice.

It may not be out of place just here to state some things that we do not teach for sanctification, and what we do teach:

- First—Sanctification is not Absolute perfection.
- Angelic perfection.
- Adamic perfection.
- Freedom from temptation.
- Deliverance from infirmities.
- Freedom from intellectual ignorance.
- Freedom from errors of judgment.
- Exemptions from trials, afflictions and sufferings.
- Infallible security against falling.
- Perpetual freedom from conflict.
- The limits of spiritual progress in this life.
- Second—Nor does it exclude the necessity of a mediator, or involve any radical change in the physical constitution.
- Third—What sanctification is: Perfect humility.
- Perfect self denial.
- Perfect meekness.
- Perfect patience.
- Perfect resignation.
- Perfect faith.
- Perfect hope.
- Perfect love.
- Purity, not maturity.
- Subtraction, not addition.

## JUSTIFICATION AS COMPARED WITH SANCTIFICATION.

1. Justification is the birth of the spirit.
2. Restores you to the favor of God.
3. Has to do with sin as an act.
4. Gives you the right to heaven.
5. Is a quickening of the moral sensibilities.
1. Sanctification is baptism of the spirit.
2. Restores you to the moral likeness of God.
3. Has to do with sin as a principle.
4. Gives you the fitness for heaven.
5. The crucifixion of the carnal sensibilities.

We have thus given you a brief outline of what we are teaching. We believe it to be a bible doctrine, and we stand on it, regardless of the opinions of men.

1. We do not teach sanctification as simultaneous with regeneration.
2. We do not teach that it is obtained by growth.
3. We do not put it off so late as the hour of death.
4. We do not believe it is obtained after death in purgatorial fires.
5. We do not teach that it is a work subsequent to regeneration, and obtained simultaneously by faith, and that it is of God and for the believer.

The first of these theories is unscriptural. The second has no witnesses. The world has not been able to produce one witness to this doctrine in six thousand years.

The third theory dishonors the power of the Blood.

The fourth theory is a Roman Catholic dogma, and calls for fire to do what Christ and the Holy Ghost could not do.

The fifth is in accord with Scripture, experience, and every creed in Christendom.

Lastly, we believe the Bible and teach people to believe it. When the Bible says "white, we believe and teach that it means white, and not black. So, then it says "be holy, for I am holy, we believe that it means holy, and not unholy. And when it says His name shall be called Jesus, for He shall save His people from their sins, we believe just what it says, that is, He saves His people from their sins; but we never have been so foolish as to believe or teach that He saves the devil's crowd from their sins.

When the Bible says we shall serve Him in holiness all the days of our life—Luke 1:75—we believe that means while we live, and not after death.

May God bless all who read this article thoughtfully.

Yours in the work,  
C. C. Cecil and J. W. Hypes.

## Volcanic Eruptions

## STRIPPING THE SHAMROCK.

Sir Thomas Lipton Goes to Chicago. Another Challenge in 1901.

New York, Oct. 23.—The crew of the Shamrock began work early this morning stripping the yacht of her racing rigging at her berth in the Erie basin. Her topmast was sent down on deck and then transferred to her storage lighter, after which her running gear was unrope and all her sails taken from the yacht's hold and transferred to the lighter. Captain Hogarth said that he expected to take the mast off tomorrow, and to have the yacht under jury rig by the end of the week.

Tomorrow night Captain Hogarth's Captain Wringe and Shamrock's crew will meet Captain Barr and the victorious Deep Sea boys from the Columbia in Prospect Hall, Brooklyn. A feast and general entertainment has been prepared for the vanquished and the victors by the yacht masters' association. A variety entertainment will be provided after dinner.

Sir Thomas Lipton will go to Chicago tomorrow. He is expected to present his intention of challenging in 1901, as he does care to try to get ready for next year. He will give way, however, to anybody desiring to challenge before him.

Will Fife, the designer of the Shamrock, is still very seriously ill at the Fifth Avenue Hotel. So much is he suffering from inflammatory rheumatism that a frame had to be built over his bed to prevent even the bedclothes from touching him. It is said that he is extremely doubtful that he will be able to return to England with Sir Thomas Lipton.

## VANCE'S FIRST COMPOSITION.

It Was on Toads, and Was, of Course, a Good One.

A lady of this city, one of the teachers in the graded school, has received from a first cousin of the late Senator Vance, says the Charlotte Observer, a copy of his first school composition. It has come into the possession of the Observer, which has every assurance of the genuineness of the document, and is given as an evidence of the writer's then budding genius:

TOADS.  
You told me to tell what I knowed about Toads. Well Toads is like frogs, but more dignity, and when you come to think of it frogs is wetter. The warts which toads are noted for can't be cured, for they is croakid but I could get well I'd stay in the house. My Grand father knew a toad that some lady had trained till it was like folks, went its master whistled it would come for him. They ketches on with their long which is some like a long red worm but more like littenil littenil hasint got no gum onto its hind. The di will be standing a rubbin its hind legs together and a thinking what a fine fat it is and the toad a stutin some distance away like it was asle p. While you say this di as plane as you ever see anything all at once it aint there—then the toad looks up you aout out of its eyes like he said. What become of that it? But you know he it. Thats what I know about toads.

## Many Thanks.

"I wish to express my thanks to the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy for having put on the market such a wonderful medicine," says W. W. Massingill, of Beaumont, Tex. There are many thousands of mothers whose children have been saved from attacks of dysentery and cholera infantum who must also feel thankful. It is for sale by C. E. Holton, Druggist.

The statue of Senator Z. B. Vance will be unveiled at Raleigh, N. C., on May 20, and the entire National guard of the state will probably parade.

## A RUNAWAY ICE YACHT.

An Exciting Chase and a Narrow Escape From Death.

Some years ago there was a runaway down at Shelter Island in which a young girl was left in the boat with a gale blowing. She tried to throw the sheet loose, but it was frozen and her fingers were too cold, added to which the sheet had fouled the tiller, and she could not bring the boat up into the water, and to stop it way, the sail being so set that the boat continued running right along at a terrific rate of speed.

Occupants of the other boats soon realized the position and hastily came to the rescue. One boat finally being far in the lead of the others the time of the end of the island was left behind. Right in front lay the end of the ice, broken short by the action of the tide water, and there the breakers rolled in, throwing up the anchor ice, dashing it down, and then retreating, sucking it under the ice and packing it up for another break.

For some time it was a question as to whether the chasing boat would catch up with the girl before she was carried over the edge to certain death. But at last the boats caught together for one brief second, the girl was snatched by strong arms to the punner's yacht, the sheet was eased off in a flash, and spinning round in its own length, it was set right before the wind instead of reaching into it, just as the runaway dashed over into the anchor ice.

A short sharp crack gave notice of the parting of the ice beneath the very runners of the now homeward bound yacht. The ice was broken into two pieces, but her speed enabled her to withstand, she dashed across the fast opening crack, safe, to be brought up into the wind at a distance, while the ice touching her, was broken into two pieces. It was one of the close calls of ice yachting which, thank goodness, very seldom occur!—W. P. Pond in Frank Leslie's Popular Monthly.

## LUCKY DEUCE OF SPADES.

Remarkable Run of Luck, but All For the Other Man.

One by one the old superstitions are being torn from us. People nowadays walk ostentatiously under ladders and suffer no evil consequences. Friday is quite a popular day for the commencement of a long journey, and sitting down at dinner is frequently unattended with untoward results. A deeply rooted superstition among card players is a belief in the lucky properties of the two of spades. The present writer's faith, however, was seriously shaken by a phenomenal coincidence which occurred only a few days ago.

Sitting down to a game of whist, he thoroughly shuffled both packs of cards, and happened to notice that the two of spades was the bottom card of one of the packs.

"This ought to bring me luck," he remarked to his friends.

He then took up the second pack, and was astonished to find that the two of spades was also at the bottom of that. Words failed to express his amazement when, in drawing for partners and deal—the cards had been shuffled again—he once more drew the two of spades.

The odds against this triple event occurring must be enormous, but more was to follow. The deal fell to the writer, and the turn up card was the inevitable two of spades.

After this the dealer felt justified in believing he was in for a good evening. As a matter of fact, he lost six rubbers in succession.—London Mail.

## Children and Dolls.

Writing in The Contemporary Review, Professor Sully discusses the curious aspects in which children regard dolls. He says Professor Huxley has brought to light some curious preferences of children. He tells us, for example, that whereas out of 845 children 191 preferred wax dolls, as many as 144 pronounced in favor of rag ones. Old preferences are sometimes shown with regard to size. A lady writes me that she preferred 4 inch halfpenny dolls because there was so much more to be done with them. The way of cutting up wigs made from doll's hair, inking in eyebrows, etc. On the other hand, another English lady tells me that her child's ambition was the possession of a big doll—none that would arm and ride some of the crinoline that I wanted to bestow and which no body seemed to want. This girl image is, so far as the uninitiated adult can divine, the true child's doll.

## Coalfields of the World.

Geologists estimate the great coal fields of the world in square miles as follows: United States, 300,000; Great Britain, 190,000; Canada, 65,000; India, 85,500; New South Wales, 24,000; Russia, 20,000; and the United Kingdom, 11,500. There are many more coal fields in other countries, but their extent is inconsiderable. England's coal area is small; still she for years produced more than any other country. Now the United States is ahead. English coal veins are thin; one only 14 inches wide has been worked 1,200 feet down. On the other hand, there are veins in the Pennsylvania anthracite region 60 feet thick and in the bituminous regions 18 feet thick. Our Appalachian coalfields are the largest known, and alone could supply the whole world for centuries to come.

## An Original Oath of Allegiance.

In the old days when the Spanish province of Aragon was a proud and independent monarchy the people used to swear their allegiance to their king, the following singular form of election:

"We, the freeborn inhabitants of the ancient kingdom of Aragon, who are equal to you, Don Philip, and something more, elect you to be our king on condition that you preserve to us our rights and privileges. If in this you should fail, we own you for our king no longer."—Harper's Round Table.

It is the business policy of the Provident Savings to give the assured their insurance at the lowest possible cost to them, instead of building up a monumental surplus, in which they do not participate, but for the possible benefit of those who never contribute to it.—The Journal of Commerce, New York City, August 21st, 1899.

The strike of iron moulders and core makers at St. Paul, Minn., is practically at an end.

## No Cure—No Pay.

That is the way all druggists sell Grove's Tasteless Chili Tonic for Chills and Malaria. It is simply iron and quinine in a tasteless form. Children love it. Adults prefer it to bitter, nauseating tonics. Price, 50c.

## James Reed Injured.

Mr. James Reed struck his leg against a cake of ice in such a manner as to break it severely. It became very much swollen and pained him so badly that he could not walk without the aid of crutches. He was treated by physician, also used several kinds of ointment and two and a half gallons of whiskey in bathing it, but nothing gave him any relief until he began using Chamberlain's Pain Balm. This brought almost a complete cure in a week's time and he believes that had he not used this remedy his leg would have had to be amputated. Mr. Reed is one of the leading merchants of Clay Court House, Va. Pain Balm is unequalled for sprains, bruises and rheumatism. For sale by C. E. Holton, Druggist.

In describing the bombardment of Morro Castle at Santiago during the Spanish-American war a writer who was in Cuba tells how he and some newspaper men managed to attain a point of vantage near the Texas.

A few days previous a rival newspaper dispatch boat, the recipient of certain courtesies with which we had not been favored, had been carrying minor telegrams to the flagship from one point or another, and she was in the habit of sailing in among the fleet, with an air of importance and displaying the signal, "We have dispatches for the admiral."

This we acted upon, and our vessel was allowed to glide in without interference, until we reached the Texas. Once alongside, Captain Philby hailed us with delight, accepted our little gift and told us that a bombardment was very shortly to take place. We thought ourselves in great luck at receiving this news and made outside the lines, keeping as near to the squadron as we were permitted.

Reputation.  
In the "Memoir" of Lord Bramwell is a telling illustration of the fact that reputation clings to us, even after many years. The great jurist as a little lad became a pupil at Dr. Reddy's school, where the late Baron Channell, three years his senior, was head boy.

Channell read for the law, and the two school friends scarcely met again until, years afterward, Mr. Channell became a barrister in a certain case at Maidstone. Consultation with the solicitors showed a flaw in the pleadings drawn by them. It was of a sort which in those days would prove fatal to the case. The solicitors could only hope that it would not be discovered.

"Who is against us?" asked Channell.

"Oh," was the reply, "Mr. Bramwell. Nobody ever heard of him before."

## Handling a Cobra.

When I went to the sailor, he held in his hand a very old and ragged bag. He said, "I've got a fine stinging fellow here for you." I asked him to let me see it. He opened the bag and showed me one of the largest and fiercest looking cobras I had ever seen. I obtained a large fish globe, into which I told him to drop the serpent, bag and all, and then secured the top. I asked him how he became possessed of this dangerous creature.

"Caught it among some timber," said he, "on board a ship at Blackwall, just long from India. I asked him how you get here with it in that rag?"

"Well," said he, "I took the train from Blackwall and the omnibus from Fenchurch street, and he (meaning the snake) was quite quiet all the way."

"Will you let it go?"

"Ten shillings and my expenses." Which I paid. He asked me if I would take another if he caught it, as he had seen one larger than the one he had brought with him.—Bartlett's "Wild Animals in Captivity."

## Time For Tea.

Frederick the Great made generous presents to his musketeers except first players. He played the flute remarkably well himself. A famous flutist once asked permission to play to the king, hoping that Frederick would show his appreciation of his skill by some valuable gift. Frederick listened attentively while he played a difficult piece. "You play very well," he said, "and I will give you a proof of my satisfaction."

So saying, he left the room. The musician waited, guessing at the probable nature of the "proof." Presently the king returned with his own flute and played the same piece. Then he bade his valet "Good day," saying, "I have had the pleasure of hearing you, and it was only fair that you should hear me."

## Weight of a Lion.

What does a lion weigh? Those who know the look of the king of beasts best and have seen him in the wild will probably come farthest from the truth. About 800 to 850 pounds is a usual estimate. But a full grown lion will tip the scales at no less than 600 pounds. Five hundred and forty pounds is the record for an African lion. His bone is solid and heavy as ivory.

The tiger runs the lion very close. A Bengal tiger, killed two years ago by an English officer, scaled 520 pounds. A tiger this size has, however, considerable more muscular strength than the biggest lion.

## Quite Clever.

Bob—How do you stand with your employer so well, Tom? You never laugh at his jokes.

Tom—No, but I dine at the same restaurant, and pretending not to see him I retell all his stories, saying loudly, "I can't tell it so well as he can, but here's a rattling good yarn Mr. D. told us this morning." I've been promoted three times in a year.—Answers.

## Birds' Nests.

Many birds vary the composition of the outer layer of the nest according to the circumstances. If the nest is located among growing leaves, the outer layer will be of green moss; if on a dark branch, of natural colored lichens.

**GOLDEN MEDICAL DISCOVERY**

If a medal were awarded for the most perfect medicine prepared for family use it would undoubtedly be given to Dr. Pierce's Golden Medical Discovery. This medicine is entirely non-alcoholic and non-narcotic, produces actual strength, instead of the simulated strength which results from the use of "whiskey" medicine, or nerve numbing, or other such quack remedies.

The many and remarkable cures resulting from the use of "Golden Medical Discovery" prove the soundness of Dr. Pierce's theory that in these days of haste and hurry the stomach is the common breeding place of disease. These cures also prove the soundness of Dr. Pierce's reasoning that "diseases which originate in the stomach must be cured through the stomach." The "Discovery" is a medicine for the stomach and other organs of digestion and nutrition. When the stomach is healthy the blood made in the stomach is healthy, and sufficient in quantity to nourish the nerves and strengthen the system to resist or throw off disease. Nature develops life, sustains life and preserves life by nourishment. Vital failure comes when the body is starved either from lack of food or the inability of the digestive and nutritive organs to extract the nourishment from the food taken into the stomach. "Golden Medical Discovery" takes the obstacles from Nature's way so that she can sustain life by her own methods.

Dr. Pierce's Pleasant Pellets assist the action of "Golden Medical Discovery."

**YELLOW FEVER EPIDEMIC.**

**So Declared at Jackson, Where There Are Now Eighteen Cases.**  
Jackson, Miss., Oct. 23.—Eight new cases of yellow fever are reported in Jackson tonight. This makes a total of eighteen cases now under treatment. The patients are well scattered over the city and the state board of health issued a statement tonight practically declaring the disease epidemic. The statement further says that owing to the lateness of the season it is not likely that the infection will spread, if introduced at another place, but suggests that other towns in the state take such quarantine action as they deem proper.

One of the new patients is a state convict named Chilton. This is the first time in history that yellow fever has appeared in the penitentiary. Fortunately, only a dozen or so of convicts are within the walls.

Dr. Haralson, Inspector of the state board, reports two cases at Flora, 18 miles north of here. Many of the citizens are leaving.

**FOUR MURDER CASES.**

**For Trial at Salisbury—New Daily to Be Started.**  
Salisbury, Oct. 23.—The next term of court here will probably have a full list of cases in the trial of capital cases. There are at present four prisoners in jail awaiting trial for murder, and one other who will be tried for the same crime if the man be shot, which in all probability he will, making in all five murder cases. The two negroes who killed policeman Kerns, of Concord, have had their case moved here. All of the prisoners are negroes.

Salisbury is to have a new daily paper, The Index. It will be edited by Dr. Stallings, late president of Thomasville Female College. Publication will commence some time this week.

**REV. S. A. DONAHOE**

**Testifies to the Good Qualities of Chamberlain's Cough Remedy.**  
On the 10th of December, 1897, Rev. S. A. Donahoe, pastor M. E. Church, South Point Pleasant, W. Va., contracted a severe cold, which was attended from the beginning by violent coughing. He says: "After resorting to a number of so-called 'specifics,' usually kept in the house, to no purpose, I purchased a bottle of Chamberlain's Cough Remedy, which acted like a charm. I most cheerfully recommend it to the public." For sale by C. E. Holton, Druggist.

It is no sign that the man who has stolen a chicken is conscience-stricken when he makes a clean breast of it.

**Charged with aiding Albert Kent, Jr., in the forgery of \$16,000 in paper money on the Union Trust Company, of Jameson, N. Y., Mr. Margaret Benton was arrested yesterday on arriving at San Francisco from the Orient.**

**His Life Was Saved.**

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from death. In telling of it he says: "I was taken with typhoid fever that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now I am well and strong. I can't say too much in its praise." This marvelous medicine is the surest and quickest cure in the world for all throat and lung trouble. Regular size 50 cents and \$1.00. Trial bottles free at C. E. Holton's drug store; every bottle guaranteed.

**No Right to Ugliness.**  
The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking charming woman of a run-down invalid. Only 50 cents at C. E. Holton's drug store.

**A Good Story of Landseer.**

Landseer, riding down Bond street, saw the following notice in a picture dealer's shop window. "A Fine Landseer on View Within." He went into the shop and asked to see the "fine Landseer." The dealer, who did not recognize him, proudly pointed out the work. It was rather an early one. The dealer was, of course, fond in his praise. "And how much do you want for it?" said Landseer. "Two thousand guineas, sir," was the reply. "Two thousand guineas? That seems a long price for an early work." "I could not take a shilling less," said the dealer. "He's gone, sir," touching his forehead significantly. "He's out of his mind. He'll never paint another."

"Is he indeed?" said Landseer. "I'm very sorry to hear that." And as he was coming away he noticed a large picture by Standfield. "May I ask what you want for this Standfield?" "That, sir, is also 2,000 guineas." "What?" said Landseer, touching his forehead and imitating the dealer's gesture. "Is Standfield gone too?"

**The Reason.**

"If you scour the world you will never find a remedy equal to One Minute Cough Cure," says Editor Packler, of the Micanopy, Fla., "Hustler." It cured his family of LaGrippe and saved thousands from pneumonia, bronchitis, croup and all throat and lung troubles. Howard Gardner.

**Some Cases of Kleptomania.**

Here are some striking cases of kleptomania: A series of thefts was committed in some of the best houses in New York. The culprit turned out to be a young woman connected by birth and marriage with the owners. Thereafter, when from a household which she had visited anything was missed, the owner would go to her, kiss her and ask it back. It was quite a family matter.

At that time there was a journalist about town who was both a social favorite and an able man. He kept a bachelor establishment in which it was his amiable habit to entertain those who had entertained him. There of an afternoon or of an evening people would gather and take back from his drawing room things which he had taken from theirs. There was never a word exchanged on the subject. Perfect courtesy prevailed.

Then there was a young fellow whose name figures in the early history of the United States. At a dinner which he attended a ring handed about for inspection disappeared. So much was said that later he returned it with a statement to the effect that it had caught in the lining of his sleeve. A few days afterward we heard Talbot's—dead since, but not forgotten—ordering a coat of a tailor whom he patronized in common and expressly stipulating that it should not have that kind of sleeve.

In each of these instances the case belonged not to jurisprudence, but to pathology. Kleptomania is a disease, like influenza, only, thank fortune, less catching.—Collier's Weekly.

**NEED OF CURRENCY REFORM.**

**Treasury Department Studying the Stringency in Money Market.**  
Washington, Oct. 23.—The recent stringency of money in New York and other centers is being studied earnestly by leading officials of the treasury department with a view of securing some permanent means of relief. The experience of the past few weeks has led Secretary Gage to believe in the need of such reform of the banking and currency laws as will produce a more elastic movement of money. In his forthcoming annual report to congress he will probably use the experience of New York bankers this fall as an argument for modifying legislation.

Secretary Gage, in discussing this year's situation, said today that the cause of the trouble is the fixed volume of paper money having all the powers of a legal tender. "The remedy," he continued, "is to be found in a 'backstop' currency." Secretary Gage added that the needs of the interior of the country each autumn on account of agricultural expenditures will be conveniently met by the power of the banks to issue circulating notes.

Hardup—"I tell you, old chap, generous men nowadays are in a class by themselves." Deedbe—"You bet! They stand a loss."

Hoax—"I saw you on your new wheel yesterday." Joax—"That's surprising. Everybody else seems to have seen me when I wasn't."

Patent—Hello doctor! I was just going down to ask you to reduce that bill a little. Curious that we should meet, isn't it? Physician—"Remarkable. I was just coming up to ask you to reduce it."

**Auction Sale of Land.**

Pursuant to a resolution passed by the Board of Aldermen of the city on the 27th day of September, 1899, which resolution is as follows:

It is resolved by the Board of Aldermen of the city of Greensboro, N. C., that the property on the corner of Gaston and Greene streets belonging to the city and known as the Barker lot, be sold at public auction on Saturday, the 28th day of October, 1899, at 12 o'clock noon, at the court house door in the city of Greensboro, and that the mayor be and he is hereby authorized to carry this resolution into effect and to make title to said property to the purchaser at said sale, and that the proceeds of said sale shall be used in part payment of a lot to be bought from the county commissioners of Guilford county. That the mayor be and he is authorized to give notice of said sale in one or more newspapers published in said city for thirty days preceding the day of sale. I will be at public auction the said 28th day of October noon, at the court house door in Greensboro, to the highest bidder.

Z. V. TAYLOR, Mayor.
